

FLAT HALOGEN UWL

Flat Underwater Light.
Suitable for all kind of pools.

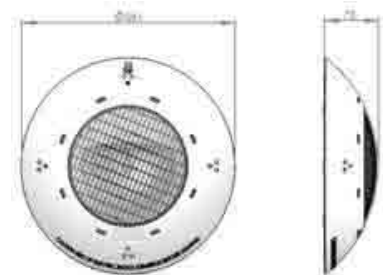

The flat light is the best option for illuminating existing pools, quickly and conveniently adding light and life to your garden.

Manufactured in polyamide and ABS, this light resists chemicals and temperature variations for years. It can be readily fitted to any existing pool, as it requires no niche for installation. The light is anchored directly to the wall with a reinforced plastic cross, anchor plugs and screws.

- Patented locking system the substitution of the lamps is easy.
- Available with 100W halogen lamp, 144 color leds plate (1 program – automatic color change), 144 white leds plate, 243 color leds plate (1 program – automatic color change), 243 color leds plate with remote control and 243 white leds plate.
- For concrete and prefabricated pools.
- Our Flat underwater light is CE certified by SGS.

Patented locking system
