Laminated Side Mount

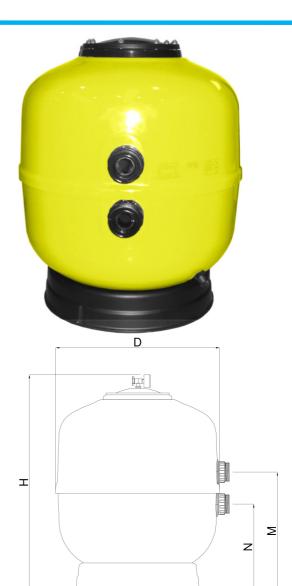

Laminated side Mount Sand Filter Durable, Reliable an Easy to Operate.

> Laminated sand filters have been produced for more than five years and they are well recognized by its durability and reliability. The design of the top cover allows to have a easy and comfortable access to the inside of the tank for operation.

> Laminated sand filters are made of polyester resin and fiberglass. The external layer of colored-gel coating assures the tank is watertight meanwhile gives the surface a high gloss end.

Colour filter Ral 1018

The maximum pressure is 2'5 Bar.

Dimensions & Specifications

Code	FXDM-500	FXDM-600	FXDM-750	FXDM-900
