

## SPARTA

All-around Pump strong and durable for above and in-ground pools.

The SPARTA pump is designed to work under a vast type of conditions. It doesn't matter the pool type it always works delivering the requested flow and pressure.

SPARTA is built to be easy to operate including features just like, see-through lid for easy inspection and a large strainer extends time between cleanings. Motor materials are rustproof, stainless steel motor shaft and sealed bearings that never need lubrication. Its thermoplastic housing withstands extreme heat and resist corrosion.

- Five models are available 033, 050, 075, 100 and 125.
- SPARTA is easy to maintain, see-through lid, large strainer and easy-to-remove drain plugs for fast winterization these and other features make it an all around pump.
- A new cover nut makes easy maintenance operations in the strainer.
- All the material have been selected with a unique target that is make SPARTA Strong and Durable.
- Every SPARTA pump is performance and pressure tested prior to shipment to ensure superior quality.
- Other options like 230V and 60Hz motors and Thai/Australian/British connections are available. For further information please contact with the factory.
- TUV GS Certified

CODE	MODEL	TYPE	H	Flow
