

## Asiatic

Self Priming Pump strong and durable for above and in-ground pools.

The Asiatic pump is designed to work under a vast type of conditions. It doesn't matter the pool type it always works delivering the requested flow and pressure.

Asiatic is built to be easy to operate including features just like, see-through lid for easy inspection and a large strainer extends time between cleanings. Motor materials are rustproof, stainless steel motor shaft and sealed bearings that never need lubrication. Its thermoplastic housing withstands extreme heat and resist corrosion.

- Available from 0,33Hp up to 1,25Hp in single phase.
- Asiatic is easy to maintain, see-through lid, large strainer and easy-to-remove drain plugs for fast winterization these and other features make it an all around pump.
- All the materials been selected with a unique target that is make Asiatic Strong and Durable.
- Every Asiatic pump is performance and pressure tested prior to shipment to ensure superior quality.
- Other options like 316SS shaft for salted water, 230V and 60Hz motors and Thai/Australian/British connections are available. For further information please contact us.
- TUV GS Certified
